

South Terrace Courts Donation Form

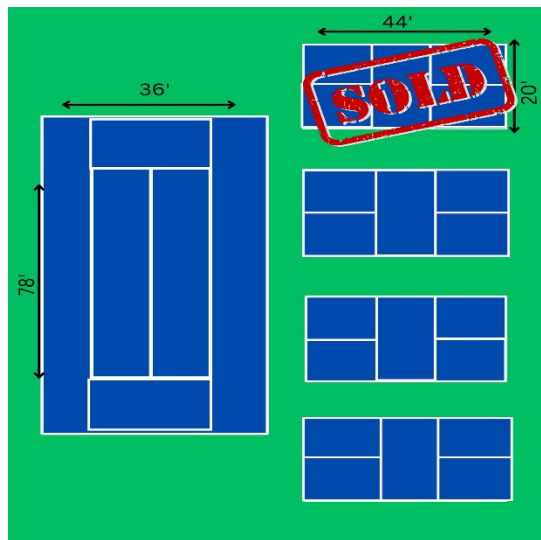

Help Bring Pickleball and Tennis to Carlton

The Carlton Area Development Corporation (CADC), a registered 501(c)(3) nonprofit, is excited to lead the effort to revitalize the tennis courts near South Terrace Elementary. After years of disrepair and numerous community requests for improvements, the City of Carlton and Carlton School District began working together on a solution.

The School District has deeded the property to the City, and CADC has taken on the mission of raising funds for a full court refurbishment. These updated courts will be designed to accommodate both tennis and the fast-growing sport of pickleball.

The City of Carlton will maintain the courts once they are complete -- but we need your help to make this project a reality.

Please consider donating to the South Terrace Courts Project and be part of creating a vibrant, healthy space for all ages to enjoy.
